The Democrats themselves haven't either for that matter, but they must talk about something, and as they have made it impossible to attempt another furifi campaign by reason of the monumental blunder newion the statute books, have fluited the currency cry for want of v (ther material).

Democracy, is only another name for humbug. Tile voters of Maine long nce discovered this fact, but the histomy of the past three years has emphasized it. The convention to-day will iningurate a campaign that will end to September next with a sweeping Repulslican victory. Maine in common with -the rest of the country has suffered exverely as a result of Democratic slupidity. The responsibility for the existing condition of affairs is fixed and cannot be evaded by the Democratic party. The country accepted its doctrine in 1892 and every voter now knews what Democratic rule means. It will have to stand face to face with its record of disaster and on that record will go down to deserved de-

Conceding the Fight.

An honest confession is good for the soul. One Democratic paper, at least has abandoned the attempt to pose the Democratic party as in favor of sound money, and frankly admits that the game is up. In sharp contrast with the abourd efforts of certain organs of the party to ignore the free silver strength. the Richmond Times unbentatingly states that in its opinion the free silver men are in a large majority and will control the Chicago convention. It says:

When Michigan's Democratic convention when Michigan's Democratic convention voted in Index of possessive the voted in Index of possessive was the uplet a turn had come in the thick and that the whole Northwest, would desired for some mouses which would be the fathernal noney sees sometic of the fathernal Democratic convention. bera cutilied it to. That is not the way to deal with the case. The way to deal with it is to allow this element free course in the arcticles of a power that belongs to it, and for the rest of us to belongs to it, and for the rest of us to be used up to the rest of us to the rest o their fate and are dished to pleces. After that we can reform the party upon sound principles, and go before the couptry asking for is confidence and support; that entitle us to that confidence and support. That is the manly and attaightforward way to deal who the case, and nothing but disaster and humilitation will be the lot of those who attempt to secure to themselves by to lekery an advantage that does not belong to them of light.

vantage that does not belong to them of tight.

The truth is this fight has get to be fought out at one time or another, and now is as good a time for it as any other. If the free colners are an a majority in our party, as now seems almost certain, let them unbindered adopt their free silver platform and nominate their free silver man. Whatever platform the Republican party may adopt, and wheever it may nominate, it will in that care be understood by the country as the party that is standing for sound money against cheap money, and the counts will be fought ou, before the people with that understood by them as the election goes, so will the question of money be held to be settled. If the Democratic these wine, the world will set us down as a cheap-money country; it the Hepublican tickst wins, it will set us down as a sound money country, and silver will either triumph or be destroyed, as the election goes. The Democratic party demanded reform, but when receiped unlimited colonge of silver, except interaction is greenent, and until such a sensitional greenent, and until such a sensition is greenent, and until such a sensition is greenent, and until such a sensition is come to a question of schedules they are in free popular calculor; in the present of the cause of temperature, is plant and it invalidation; in the restriction of imbigration; just administration of in pension legislation, in whatever legislation will restore a metal-hipping to its former; and in the calculotion of Mational breaking the composition of the calculotion of the calcul iff was absolutely essential to its px's-tence. When the destimony was all in there was not an industry of any consid erable amportance concerning which some Democrat had fa led to appear and argue in favor of protection. So it is with the River and Harbor bill. The President, according to their views, was entirely justified in veloing the bill as a whole, but if he could have made an exception in the appropriation in which they have a direct interest it would have been fur the unblic welfare. The these exceptions in the aggregate and the President would have had nothing left'to which to apply his very. This is charac-

This poculiar cry was one of the signals of the Australian blacks and was specifity adopted by the tryading whites. The final "6" is a kind of prolonged semesh and adopted by the inviding whites. The final 'e' is a kind of prolonged screech and resounds for mines through the high, thus onabling separated persons to ascertain their relative positions.

A popular story runs that two wealthy Australian equations lost themselves in a London fog and were only reunified after a series of long coo ee-s. Once, too an audience in a London theater was much startled by hearing this awful ery. It was uttered by an Australian in the upper direle to an old enfourial accimalance in the pit.

circle to an old enterini acquaintance in the pt.

On another occasion was this ory heard to London. A daring bushranger, named Garrot, who had spent no fewer than 50 Christmas days in frison, made his appearance in front of a bank in Ballarni and coully better up a notice to the effect that the place would be closed for an hour. He then terrorised the officials and gos away with 28,000.
